

Skype USB Conference Phone

Skype USB Conference Phone

Make conference calls over the internet with up to twice the voice quality of your phone line

Skype Conference Phone is used for making conference calls over Skype, IPEVO's award-winning XING Conference phone for Skype delivers outstanding tele-conferencing experience as using a traditional phone line, without worrying about the phone bill.

Benefits of Skype Conference Phone:

Group Conferencing: Hands-free talk without having to pass the microphone around.

Free Calls: Call anywhere at anytime, without worrying about phone bills

Easy to use : Plug and Play simple secure conferencing

Voice Quality : Seamless voice performance : High voice fidelity for a distinct communicating experience.

Echo-cancellation : Echo cancellation technology suppresses surrounding noise and interference.

360 Degree mic : Picks up voice with ease within 5 second

Exclusive for Skype VoIP conferencing, the "X" form reflects the spatial configuration specific to PC conferencing where users sit facing a visual focus- the monitor or projection screen. XING can be used anywhere with internet access, so "X" marks the spot of connectivity, the four corners of a room, the crossing of ideas.
