

Double High powered 32 watt cell phone Jammer (DHP Jammer)

This model is a Double high-powered cell phone jammer. It produces a huge 32 watts of jamming power that has an effective range of 20 meters to 120 meters indoors.

With this sort of power, it is ideal for prisons, jails, cinemas, recording studios, court and government buildings and very large areas. It comes complete with dual voltage mains adaptor and special patch antennas for optimum range and performance.

This model is an extremely powerful and professional piece of equipment that performs brilliantly.

Important Note

The jamming area is influenced by the location of the cell tower and the obstacles between cell tower & the cellular jammer.

It means that in normal condition if the distance is close between the cell tower & the cellular jammer, it will have very less jamming area. Likewise, if there are obstacles & walls between the cell tower & the cellular phone, the jammer will give more jamming area.

Specification (DHP Jammer)

Jamming Range	20 to 120 meters (Depends on signal strength, at the site to be jammed)
Cellular Systems	(CDMA): 860 - 885 (GSM): 925 - 960 (DCS.PHS): 1800 - 1990 GSM / CDMA / PCS / TDMA / DCS / AMPS / NMTP / Nextel
Power Supply	32 watts 24 volts DC
Dimension	L 308 x W 186 x H 53 mm
Net weight	2 kg
Antenna	Patch Panel antennas.
