

## Pocket Cellular Jammer (PK Jammer)

Looks just like your mobile phone, allows you to carry it anywhere without others aware: in class, in seminar, in shop, place of worship, library, on train or bus during trip, etc.

### Features:

- Coolest and lowest priced jammer on the market.
- Portable, Small, Compact and Robust.
- To keep you away from noise or disturbance of unexpected cellular phone calls or text messages (SMS).
- For use at meeting rooms, conference rooms, museums, galleries, theatres, concert halls, churches, temples, restaurants, classrooms, training centers, factories, banks, trains, buses etc
- Easy to operate. No adjustment needed.
- Prevents mobile phone communication during important meetings, thereby eliminating any disturbances.
- Avoid information being disclosed secretly during meeting.
- Restaurants, theatres, cinemas, conference room, trains, buses, personal meetings, libraries and schools can be free from cellular phone nuisance.

### Important Note

The jamming area is influenced by the location of the cell tower and the obstacles between cell tower & the cellular jammer.

It means that in normal condition if the distance is close between the cell tower & the cellular Jammer, it will have very less jamming area. Likewise, if there are obstacles & walls between the cell tower & the cellular phone, the jammer will give more jamming area.

### Specifications (PK Jammer)

<b>Jamming Area</b>	0.5 to 10 meters radius (1.6 Feet to 33 Feet) (Depends on signal strength, at the site to be jammed)
<b>Cellular Systems</b>	(CDMA): 800 MHz (GSM): 900 / 1800 MHz GSM / CDMA / PCS / TDMA / DCS / AMPS / NMTP / Nextel
<b>Power Supply</b>	20mW (good in hospital) Ni-MH 4.8V 830mA Battery pack
<b>Dimension</b>	(L)134 x (W)50 x (T)27 (mm)
<b>Net weight</b>	110g
<b>Antenna</b>	Swivel type 360 degree rotary adjustment and 90 degree adjustment
