

Spy Camera Room Jammer (SCR Jammer)

Introduction:

SCRJ utilizes unique and intelligent technique that Jams wireless signal communication transmitted secretly between Spy Camera and the Audio Video transmitter.

This is a professional high powered video camera jammer. It produces a powerful 4 watts of jamming power to disable just about all video cameras up to a distance of 70 metres and covers all frequencies between 900Mhz - 2.5Ghz. It is powered by a 12 volt mains adaptor which is dual 120v/240v and included with the jammer or can be powered by any ordinary 12 volt battery source. This device will jam the signal for any wireless video camera, wireless lans and bluetooth.

Note: Always connect matching antennas before using the cell phone mobile jammer to avoid any damage

Specifications

Effective range	Up to 70 metres radius
Input power	12v DC via mains power supply (supplied)
Output signal strength	4 watt
System	900MHz - 2.4GHz
Signal source	synthesized
Operation temperature	-10c to +50c
Humidity	5% to 80%
Size	L 197 x W 186 x H 53 mm
Weight	1.5kg

Important Note

- Before turn on the power, please make sure both antenna are correctly plug in.
- The antennas have to plug in according the frequency to the right connector to prevent short circuit.

Installation

- Take the Breaker out of the packing box.
- Plug in the antenna according to the frequencies.
- Plug in the AC power and then plug in DC jack to the Jammer.
- When the LED is on, the Jammer is activated
