

Low Power Mini Jammer (LPMJ JAMMER)

Introducing the "new" Tri-Band Mini-Phone jammer the most sophisticated Digital Cellular Mobile Phone Jammer off its class, a mobile device to help you keep away from noise or disturbance of cellular phone calls.

Note: Always connect matching antennas before using the cell phone mobile jammer to avoid any damage

Features:

- Coolest and lowest priced jammer on the market.
- Portable, Small, Compact and Robust.
- To keep you away from noise or disturbance of unexpected cellular phone calls or text messages (SMS).
- World wide compatible
- To paralyze cellular phone communication links within an effective area.
- No transmissions or receptions of cellular phone calls in coverage area.
- All specified frequency bands will be paralyzed simultaneously.
- The coverage area is a sphere area with its effective distance as a radius.
- For use at meeting rooms, conference rooms, museums, galleries, theatres, concert halls, churches, temples, restaurants, classrooms, training centers, factories, banks, trains, buses etc
- Easy to operate. No adjustment needed.

Important Note

The jamming area is influenced by the location of the cell tower and the obstacles between cell tower & the cellular jammer.

It means that in normal condition if the distance is close between the cell tower & the cellular Jammer, it will have very less jamming area.

Specifications of LPMJ JAMMER

Jamming Area	5 to 10 meters of indoor (Depends on signal strength, at the site to be jammed)
Cellular Systems	(CDMA): 800~895MHz (GSM): 890~964MHz (DCS.PHS): 1.700~2.000 GHz GSM / CDMA / PCS / TDMA / DCS / AMPS / NMTP / Nextel
Power Supply	100-300VAC DC 12V@1.0A
Dimension	9.5cm(W) * 7cm(H) * 2cm(D) Weight
Net weight	202 gm
Antenna	Swivel type 360 degree rotary adjustment and 90 degree adjustment
