Send and Receive e-mail

Access corporate files and databases

GSM/GPRS

- Wireless data transfer up to 53.6 kbps (network dependent)
- Mobile originated and terminated SMS messages
- Audio jack in PC Card for GSM voice communication
- Robust removable antenna

Connectivity

Sleek GPRS Modem provides GPRS connectivity to the Internet over the GSM/GPRS cellular network. Data speeds of up to 53.6 kbps can be achieved depending on network connections.

Portability

Lightweight and compact, the sleek GPRS Modem slides into the USB slot to give access to the Internet anywhere with GSM/GPRS coverage. No more hunting for data port, phone jacks and cables.

Compatibility

Sleek GPRS Modem is designed for computers with Windows™ XP/ Windows2000/NT, Windows CE, Microsoft Pocket Pc2002, and Linux Laptops and PC's

Simplicity

Sleek GPRS Modem comes with easy to use configuration and monitoring utility. Once connected, popular third party applications can be used to browse the web, send and receive e-mails, and access corporate files and databases.
