

Solar Lantern

light for life....

Solar lantern is a revolutionary new device that harnesses power from the Sun. Simple and robust in its design, it is a permanent replacement for paraffin and kerosene lamps thereby creating a smoke free environment for all.

Benefits:

- Zero recurring cost.
- In built mobile charging facility.
- Works even in monsoons.
- Continuous bright light for 10 hours on a single charge.
- Ideal alternative during power cuts and emergency.
- Eco-friendly-harnessed from solar energy.

Features:

- 10 years lifespan of solar panel & LED.
- Weatherproof solar panel.
- Light weight and portable.
