

Solar Lantern

Solar technology does not mean maximum prices anymore. For the first time, Belifal brings a bright, clean light, designed for the needs of the masses. The solar lantern is the latest cost saving product designed specially to give bright solar light for 12 hours minimum. For the first time it comes in with an inbuilt mobile charging facility. Includes a solar panel which along with the LED lights has a lifespan of 10 years. It works as an ideal alternative during power cuts and emergency.

Benefits:

- Zero recurring cost.
- In built mobile charging facility.
- Works even in monsoons.
- Continuous bright light for 12 hours on a single charge.
- Ideal alternative during power cuts and emergency.
- Eco-friendly-harnessed from solar energy.

GOING GREEN Has Never Been Easier!
